

295W high-efficiency perc bifacial module

Overview

This bifacial high power module utilizes dual cell PERC technology. It achieves up to 30% more energy yield from the back side and operates at a low hot spot temperature. The BiHiKu6 module features advanced bifacial technology to capture sunlight from both sides, increasing total. LONGi supplies its reliable, high-performance solar modules to 6 continents and 85 countries and regions to power the world toward a low carbon future. LONGi has laid out several.
