

Inquire about 30kWh outdoor energy storage cabinet

Overview

This air-cooling outdoor cabinet is now available on the market with a 30kW hybrid-coupled system, capable of both on-grid and off-grid operations. Additionally, H30 could be programmed to discharge and meet the energy demand on project basis, designed for small businesses. It is a unified power supply platform system that supports various AC and DC input and output formats, meeting. The outdoor photovoltaic energy cabinet can provide reliable housing for network servers, edge computers, professional equipment, monitoring systems, photovoltaic, and battery systems. Developed by KISR, the project took on an EPC contract. It is built specifically for outdoor installation and integrates advanced LiFePO₄ battery technology, a high-level. The battery modules are equipped with an automatic fire extinguishing device to prevent fire hazards. Click [here](#) for User Manual details.
