

Investment promotion solar panels

Overview

You might think that solar energy is a relatively new phenomenon, but using the sun as a source of energy actually dates back to the 7th Century B.C. when a magnifying glass was used to concentrate the sun's rays to make a fire and burn ants. It wasn't until 1767 that the First Solar collector was created thanks to Swiss. It can be difficult to know how to start investing, but you'll generally have to choose between individual stocks and funds that hold baskets of companies. Here are a few of the most popular.
